

# **Jak opublikować artykuł w czasopiśmie z listy filadelfijskiej**

dr inż. Anna Gliszczyńska-Świgło

Katedra Instrumentalnych Metod Oceny Jakości

Wydział Towaroznawstwa

# Lista filadelfijska

## (ISI Master Journal List)

- Wykaz tytułów czasopism naukowych opracowany i aktualizowany przez [Institute for Scientific Information](#) (Instytut Informacji Naukowej) w Filadelfii. Wykaz ten pod nazwą *master journal list* jest dostępny w wersji elektronicznej na stronie internetowej Instytutu.
- Lista zawiera tytuły czasopism, które przeszły proces oceny i są uwzględniane przez bazy ISI.
- Czasopisma na liście filadelfijskiej są w założeniu najlepszymi z branży, a publikacja w nich ma mieć większą wagę niż w mniej znanych czasopismach.
- Nie wszystkie tytuły z listy filadelfijskiej są punktowane przez Ministerstwo Nauki i Szkolnictwa Wyższego.
- Aktualna lista czasopism punktowanych (z dnia 19 listopada 2007 r. wraz z uzupełnieniem z dnia 4 marca 2008 r.) znajduje się na stronie [MNiSW](#) ([www.nauka.gov.pl](http://www.nauka.gov.pl)).

# Journal impact factor

- Termin „lista filadelfijska” często jest błędnie używany na określenie listy czasopism, które mają obliczony wskaźnik **Impact Factor** (IF). Lista czasopism posiadających IF dostępna jest w bazie Journal Citation Reports (JCR) tworzonej przez ISI.
- **Impact factor** - (IF) – w wolnym tłumaczeniu „miara oddziaływania” – to wskaźnik prestiżu i siły oddziaływania czasopism naukowych, ustalany przez Institute for Scientific Information, na podstawie prowadzonego przez ten Instytut indeksu cytowań publikacji naukowych.
- Punktacja na liście MNiSW a IF

Czasopismo	IF (2006)	Punktacja MNiSW
Free Radical Research	2,536	20
Journal of Food Protection	1,921	24
Food Control	1,579	20
Journal of the Science of Food and Agriculture	1,026	24

# Jak publikować?

- Pomysł na artykuł i/lub wyniki, które warte są opublikowania.
- Piszemy artykuł.
- Wybór czasopisma:
  - Elsevier (<http://www.elsevier.com>);
  - Wiley-Blackwell (<http://www.blackwellpublishing.com>);
  - Taylor & Francis Group (<http://www.taylorandfrancisgroup.com/>, <http://www.tandf.co.uk/journals/>);
  - The American Chemical Society (<http://pubs.acs.org>);
  - The Society for Food Science and Technology (<http://www.ift.org>).
  - Czasopisma wydawane przez różne instytuty.

# Główne powody przyjęcia artykułu do publikacji

- Istotny wkład i ważność publikowanych wyników czy rozważań dla danej dziedziny nauki.
- Doskonały lub bardzo dobry sposób przedstawienia problemu.
- Wysoka jakość prezentowanych wyników.

# Główne powody odrzucenia artykułu

1. Nieprawidłowo zaplanowane badania lub badania niepełne np. nieodpowiednia wielkość próbki, źle zaplanowany eksperyment, błędy merytoryczne w badaniach, zły dobór metod badawczych.
2. Artykuł nie odpowiada zakresowi zainteresowań danego czasopisma.
3. Słaby język angielski (gramatyka, styl, składnia).
4. Niewystarczająco uwypuklony problem badawczy (jasno i odpowiednio zdefiniować cel badań i podkreślić ważność prowadzonych badań).
5. Niepełny opis stosowanych metod (brak szczegółów pozwalających na powtórzenie eksperymentu lub brak odpowiednich odnośników literaturowych).
6. Nieprawidłowo dobrane, niekompletne metody statystyczne lub brak statystyki.
7. Mylące lub niezadowolające przedstawienie wyników w tabelach lub w postaci wykresów.
8. Wnioski nie są poparte wystarczającymi wynikami i/lub nie podsumowują celu postawionego w pracy.
9. Niewystarczająca, nieodpowiednia lub przestarzała literatura cytowana w manuskrypcie lub brak odniesienia do literatury.
10. Autor/autorzy nie wykazali chęci poprawienia manuskryptu zgodnie z sugestiami recenzentów i edytora.

- Dostosowanie artykułu do wymagań czasopisma (wymagania dla autorów).
- Poprawność językowa.
- List przewodni do Edytora (prośba o opublikowanie artykułu + uzasadnienie + lista nazwisk i adresów potencjalnych recenzentów).
- Wysłanie artykułu (obecnie zazwyczaj drogą elektroniczną; założenie własnego profilu; wypełnienie formularza, dołączenie artykułu).
- Odpowiedź automatyczna o otrzymaniu artykułu.

### Aims & Scope

2006 Impact Factor: 1.500

Ranking: 10/93 (Sociology), 24/175 (Economics)

© Thomson ISI Journal Citation Reports 2007

This radical interdisciplinary journal of theory and politics continues to be one of the most exciting and influential resources for scholars in the social sciences worldwide.

As one of the fields leading scholarly refereed journals, **Economy and Society** plays a key role in promoting new debates and currents of social thought. For over 30 years, the journal has explored the social sciences in the broadest interdisciplinary sense, in innovative articles from some of the world's leading sociologists and anthropologists, political scientists, legal theorists, philosophers, economists and other renowned scholars.

In regular issues, and through issues devoted to special themes, **Economy and Society** covers questions ranging

## FOOD AND CHEMICAL TOXICOLOGY

## Managing Editors:

Joseph F. Borzelleca, Alan Boobis

See [editorial board](#) for all editors information

## Description

*Food and Chemical Toxicology* publishes original research reports and occasional interpretative reviews on the toxic effects, in animals or humans, of natural or synthetic chemicals occurring in the human environment. In addition to studies relating to food, water and other consumer products, papers on industrial and agricultural chemicals and pharmaceuticals are encouraged. Furthermore new areas such as safety evaluation of novel foods and biotechnologically derived products and inter-relationships between nutrition and toxicology are welcomed. The studies may address the physiological, biochemical or pathological changes induced by specific substances, techniques for assessing potential toxicity, including molecular biology or the mechanisms underlying toxic phenomena. All aspects of *in vivo* toxicology are covered, including systemic effects on specific organ systems, immune functions, carcinogenesis and teratogenesis. Papers reporting the toxicological examination of specific chemicals or consumer products are published irrespective of the positive or negative nature of the results, provided the tests and reporting meet current standards of adequacy. The Journal's editorial policy reflects the need for high-quality science in support of health and safety decisions. FCT is willing to consider papers of a more regulatory nature, provided they are part of a more general scientific analysis. On acceptance these papers will be published in a Regulatory Toxicology section. We recommend that before submitting a regulatory paper one of the editors of the journal is contacted.

**Welcome to Blackwell Economics**

Blackwell Publishing is recognized worldwide as one of the leading publishers of economics and finance journals and books, with titles addressing the entire spectrum of sub-disciplines.

We work with over 70 learned societies and top organizations in economics, finance and related fields. We now publish more than 80 journals in these subjects, edited and written by some of the most highly-regarded academics in the world. Among these distinguished titles are over 40 ISI-ranked journals - comprising over 30% of the journals in the 2005 business finance category and 20% in economics.

Blackwell's books program includes best-selling titles in econometrics, managerial economics, financial markets and urban economics written by authors at the forefront of their fields. We are proud to publish a number of Nobel Prizewinners including Robert C. Merton, Amartya Sen, Milton Friedman and Theodore Schultz.

You can browse this subject by using the menu to the left, or you can access a number of popular features by using one of the following links:

## International Economic Review

**Edited by:**  
Editor: Randall Wright  
Co-editor: Charles Y. Horioka

**ISI Journal Citation Reports® Ranking: 2006: 50/175 (Economics)**  
**Impact Factor: 1.031**

The *International Economic Review* was established in 1960 to provide a forum for modern quantitative economics. From its inception, the journal has tried to stimulate economic research around the world by publishing cutting edge papers in many areas of economics, including econometrics, economic theory, macro, and applied economics.

Back issues are available electronically from JSTOR [[link to http://www.jstor.org](http://www.jstor.org)]

„Submission of a paper implies that it has not been published previously (except in the form of an abstract or as part of a published lecture or academic thesis), that it is not under consideration for publication elsewhere, that its publication is approved by all authors and tacitly or explicitly by the responsible authorities where the work was carried out, and that if accepted it will not be published elsewhere in the same form, in English or in any other language, without the written consent of the publisher. „

- Odpowiedź edytora o odrzuceniu artykułu (przed wysłaniem do recenzentów).
- Odpowiedź Edytora o odrzuceniu artykułu ze względu na negatywne recenzje.

- To nie tragedia!!

- Poprawić artykuł zgodnie z sugestiami recenzentów (te aspekty, co do których recenzenci mieli rację).
- Dostosować artykuł do wymagań kolejnego czasopisma i ponownie wysłać artykuł.

- Odpowiedź Edytora o przyjęciu artykułu po ustosunkowaniu się do uwag recenzentów.
- Poprawić artykuł + przygotować szczegółową odpowiedź dla recenzentów (zwłaszcza kwestie, co do których nie zgadzamy się z recenzentem). **Ważne!!** Często Edytor decyduje o przyjęciu artykułu. W przypadkach wątpliwych Edytor wysyła odpowiedzi na recenzje do recenzentów i oczekuje od nich decyzji o przyjęciu lub odrzuceniu artykułu.

„We do not insist that you adopt all reviewer suggestions, but we do ask that you consider each carefully and explain your reasons for rejecting any one of them. Even if you feel that no change is justified for a specific point, please indicate your reason for not agreeing with the reviewer and consider clarifying the information in the manuscript in case other readers have similar questions”.

### Disclaimer

Opinions expressed in articles published in this journal are those of the author(s) and do not necessarily represent opinions of the IFT. IFT does not guarantee the appropriateness for any purpose, of any method, product, process, or device described or identified in an article. Trade names, when used, are only for identification and do not constitute endorsement by IFT.

### Criteria for manuscript acceptance

Manuscript acceptability is based primarily on quality of the work (clarity of objectives; originality; appropriate experimental design and methods; appropriate statistical analysis; depth of the investigation; substance of the results; thoroughness with which the results are discussed; appropriate conclusions), and appropriateness and importance of the topic.

### Page charges

Manuscripts on original research are subject to the following page charges:

**IFT Members:** There is no page charge for papers submitted by IFT Members after January 1, 2007.

**Non-Members:** \$85 per printed page for papers 4 pages long or less (\$120 per page for papers more than 4 pages).

Color figures can be included for an additional flat fee of \$550 per manuscript.

When payment is possible only from an author's personal funds, and this means of payment would impose undue financial hardship, a request for **partial or full waiver** of this charge can be made, provided this is done **prior to publication**. In this instance, a statement certifying that the author's employer(s) is unable to pay because of financial distress, and that the author cannot personally pay because this would impose an undue financial burden, signed by both the author and the employer, should be sent -- prior to publication -- to: JFS Managing Editor, Institute of Food Technologists, 525 W. Van Buren St., Suite 1000, Chicago, IL 60607, USA, or via fax to 312.596.5676.

Concise Reviews and Hypothesis Papers are exempt from page charges, provided the Scientific Editor (Daryl B. Lund, [dlund@cals.wisc.edu](mailto:dlund@cals.wisc.edu)) is consulted and issues an invitation in advance of submission. There are no page charges for manuscripts published in JFSE and CRFSFS.

### Reprints

Following acceptance of a paper and prior to publication, the author will be given the opportunity to purchase reprints. An order form and rate schedule will be included with the manuscript's page proof.

### Preparation of Supplementary Data

Elsevier now accepts electronic supplementary material (e-components) to support and enhance your scientific research. Supplementary files offer the Author additional possibilities to publish supporting applications, movies, animation sequences, high-resolution images, background datasets, sound clips and more. Supplementary files supplied will be published online alongside the electronic version of your article in Elsevier Web products, including ScienceDirect: <http://www.sciencedirect.com>. In order to ensure that your submitted material is directly usable, please ensure that data is provided in one of our recommended file formats. Authors should submit the material in electronic format together with the final version of the article and supply a concise and descriptive caption for each file. For more detailed instructions please visit our artwork instruction pages at <http://www.elsevier.com/artworkinstructions>.

#### Proofs

When your manuscript is received at the Publisher it is considered to be in its final form. Proofs are not to be regarded as 'drafts'. One set of page proofs in PDF format will be sent by e-mail to the corresponding author, to be checked for typesetting/editing. No changes in, or additions to, the accepted (and subsequently edited) manuscript will be allowed at this stage. Proofreading is solely your responsibility. A form with queries from the copy editor may accompany your proofs. Please answer all queries and make any corrections or additions required. The Publisher reserves the right to proceed with publication if corrections are not communicated. Return corrections within two working days of receipt of the proofs. Should there be no corrections, please confirm this. Elsevier will do everything possible to get your article corrected and published as quickly and accurately as possible. In order to do this we need your help. When you receive the (PDF) proof of your article for correction, it is important to ensure that all of your corrections are sent back to us in one communication. Subsequent corrections will not be possible, so please ensure your first sending is complete. Note that this does not mean you have any less time to make your corrections, just that only one set of corrections will be accepted. Proofs are to be returned to the Log-in Department, Elsevier Ltd, Bampfylde Street, Exeter, EX1 2AH, UK, fax +44 (0)1392 425370.

#### Offprints

The corresponding author, at no cost, will be provided with a PDF file of the article via e-mail or, alternatively, 25 free paper offprints. The PDF file is a watermarked version of the published article and includes a coversheet with the journal cover image and a disclaimer outlining the terms and conditions of use. Copies of the issue can be ordered at a specially reduced rate using the order form sent to the corresponding author after the manuscript has been accepted.

#### Copyright

Upon acceptance of an article, authors will be asked to transfer copyright (for more information on copyright see <http://authors.elsevier.com>). This transfer will ensure the widest possible dissemination of information. A letter will be sent to the corresponding author confirming receipt of the manuscript. A form facilitating transfer of copyright will be provided. If excerpts from other copyrighted works are included, the author(s) must obtain written permission from the copyright owners and credit the source(s) in the article. Elsevier has preprinted forms for use by authors in these cases: contact Elsevier Ltd., Global Rights Department, The Boulevard, Langford Lane, Oxford, OX5 1GB, UK; phone: (+44) 1865 843830, fax: (+44) 1865 853333, e-mail: [permissions@elsevier.com](mailto:permissions@elsevier.com)

**Elsevier B.V.**  
**TRANSFER OF COPYRIGHT AGREEMENT**

Scientific publishers and authors share a common interest in the protection of copyright: authors principally because they want their creative works to be protected from plagiarism and other unlawful uses, publishers because they need to protect their work and investment in the production, marketing and distribution of the article written by the author. In order to do so effectively, publishers request a formal written transfer of copyright from the author(s) for each article published. Publishers and authors are also concerned that the integrity of an article (once refereed and accepted for publication) be maintained, and in order to protect that reference value and validation process, we ask that authors recognize that distribution (including through the Internet/WWW or other on-line means) of the version of the article as accepted for publication is best administered by the publisher.

To avoid any delay in the publication of your article, please read the terms of this agreement, sign in the space provided and return the complete form to us at the address below as quickly as possible.

Article entitled: Simple reversed-phase high-performance liquid chromatography method for determination of tocopherols in edible plant oils
Corresponding author: Dr. A. Gliszczynska-Swiglo
To be published in the journal: Journal of Chromatography A

I hereby assign to Elsevier B.V.

the copyright in the manuscript named above (the "article") in all forms and media (whether now known or hereafter developed), throughout the world, in all languages, for the full term of copyright and all extensions and renewals thereof, effective when and if the article is accepted for publication. This transfer includes the right to adapt the presentation of the article for use in conjunction with computer systems and programs, including reproduction or publication in machine-readable form and incorporation in retrieval systems.

I understand that a large number of author uses are retained or permitted (without the need to obtain permission from Elsevier) to enable continued use of the article for traditional scholarship communications, for teaching, and for distribution within my institution. I confirm that I have read and understand the full list of rights retained by authors and also agree to the other *General Terms of Publication* (see below).

- I am the sole author of the manuscript
- I am one author signing on behalf of all co-authors of the manuscript
- The article is a "work for hire" and I am signing as an authorised representative of the employing company
- I am a US Government employee and there is no copyright to transfer, but I affirm the author warranties (see note 4)
- I am a co-author who is not a US Government employee but whose co-authors are government employees (see note 4)
- I am an employee of the UK, Canadian or Australian Government claiming Crown Copyright, but I affirm the author warranties (see note 5)
- I am a co-author who is not claiming Crown Copyright but whose co-authors are employees of the UK, Canadian or Australian Government (see note 5)
